Art Unit: 1614

Claims 1-4, 15, 17-20 and 23-26 are presented for examination.

Applicants' amendment and response filed January 7, 2008 has been received and entered.

Accordingly, the rejection made under 35 USC 112, first paragraph (Written Description) as set forth in the previous Office action dated November 29, 2007 at pages 3-5 is hereby withdrawn because the applicants amended claim 1 to recite other thiazolidinedione related compounds and impurities.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-4, 15, 17-20 and 23-26 are again provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-7, 9-11, 16-23, 25, 26, 33, 37 and 38 of copending Application No. 11/094,493. Although the conflicting claims are not identical, they are not patentably distinct from each other

Art Unit: 1614

because of record, for reason of record as set forth in the previous Office action dated November 29, 2007 at page 3 is **MAINTAINED**.

Claims 1-4, 15, 17-20 and 23-26 are not allowed.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 15, 17-20 and 23-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is rendered indefinite and vague because the claim is interpreted by the Examiner to be a pharmaceutical dosage form having: (a) a controlled release core of metformin, and (b) an immediate release core of pioglitazone and other thiazolidinedione related compounds and impurities set forth in claim 1, lines 1-22; or (b) can be either pioglitazone or other thiazolidinedione related compounds and impurities set forth in claim 1, lines 1-22?

The remaining claims are rendered indefinite to the extent that they incorporate the above terminology.

Claims 1-4, 15, 17-20 and 23-26 are not allowed.
